Teaching Python at the FHNW.

Dear Patrick,

I am writing to express my appreciation for your preparation of our master's students for handling **Python in Medical Data Science applications** at the University of Applied Sciences and Arts Northwestern Switzerland.

In the last years, where you conducted this pre course, we have received positive feedback from our master's students. Your proficiency in teaching Python programming fundamentals has equipped them with a valuable skill in the realm of Medical Informatics.

The practicality of your teaching method as well as the support you provided to the students in the course were remarkable. Thank you for your dedicated contribution.

Sincerely,

Dr. Uri Nahum
Dean Master of Medical Informatics
University of Applied Sciences and Arts Northwestern Switzerland
